# S9

the ideal solution for PIN-based transactions

## Unique Brand Identity Opportunity

The new Hypercom® S9 creates a new opportunity to promote your greatest asset, your brand name. The custom-decorated case allows you to express your brand effectively at the point of sale. The S9 is the most attractive, cost-effective method to accept PIN-based payment transactions.

## Rock-Solid Security

The S9 was designed using the most secure criteria in electronic transaction technology. The S9 incorporates a PIN pad that meets all Visa InfoGard security requirements including tamper-proof case; a separate security processor; and Master/Session DES, Triple DES and DUKPT support. The S9 incorporates a physical 16-key rubber keypad for ADA-compliant PIN entry.

## Reads Both Smart and Magnetic Stripe Cards

Whether customers use magnetic stripe or smart card technology, the S9 offers the flexibility to accept both for payment. With its versatile configuration options, there is an S9 to fit any retail environment.

## Fully Compatible

The S9 comes with a complete set of software utilities to enable rapid integration into your existing POS system. In fact, most retailers and/or software integrators are able to integrate their POS systems to Hypercom terminals in a matter of hours. Using software drivers such as the Windows® DLL, OPOS controls or JavaPOS controls enables retailers to take full advantage of all features and functions of the S9 without having to write a single line of code on the payment terminal.

## Specifications:

### Display

LCD: 2 x 16 characters  
Backlight: 25,000 hours (calculated)

### Keypad

Membrane: 16 silicone rubber keys

### Card Reader

Magnetic Stripe Reader (optional):  
Tracks 1, 2 (standard)  
Tracks 2, 3 (optional)  
400,000 reads (calculated)  
Smart Card Reader (optional):  
ISO 7816  
2 x 1D-000 SIM sockets (standard)  
4 x 1D-000 SIM sockets (optional)

### Communications

PIN Pad Port: RS-422 PIN (standard),  
RS-232 3-wire (optional)

### Power

12 V, 100m A (standard)

### Security

Physical: Intrusion detection, encryption coprocessor

### PIN Encryption

DES: PIN-ANSI 9.8, MAC-ANSI 9.9,  
Triple DES  
Key Management: Master/session keys (12)  
or DUKPT

### Footprint

Dimensions: 3.54" x 6.73" x 2.09"  
90mm x 171mm x 53mm

### Weight

0.29lbs/130g (approximate)

### Environment

Temperature: 0-45°C/32- 115°F  
Humidity: Max 85%, non-condensing  
ESD: 12,000 volts

### Reliability

100,000 hours (MTBF calculated)

### Configuration Options

Option 1: PIN pad only  
Option 2: PIN pad w/magnetic stripe reader  
Option 3: PIN pad w/magnetic stripe and  
smart card reader
